

# GUARD TECH REMOVER®

## Please Note

- It is essential to carry out preliminary tests and wear personal protective equipment.
- Use the product in its pure state: do not dilute or mix with other products.

## Application Procedure

1. Spray the product with a low-pressure sprayer (alternatively brush), onto dry material.
2. Let it take effect for between 5 to 15 minutes. The action time varies depending on the thickness of the material to be removed.
3. Rinse the entire surface thoroughly (preferably with a high-pressure cleaner).
4. The treated surface does not need to be neutralised after rinsing.
