

GUARD REMOVER[®]

Efflorescence & Cement

Please Note

- Shake the product well before use and apply neat.
- Always test on a small hidden portion of the substrate before applying.

Application Procedure

1. Moisten the surface and then apply the product generously.
2. Leave for a maximum of 5 minutes while brushing with a stiff broom to improve the result.
3. Do not allow the product to dry prior to rinsing.
4. Rinse the entire surface thoroughly with a water jet or high-pressure cleaner.
