

REJUVENATE®

MULTI-SURFACE RESTORER

Surface Preparation

- Apply the product to a clean, dust-free, grease-free and dry surface.
- To remove stains and traces of pollution, use Guard Wash Express.
- To remove traces of efflorescence, laitance or grout film, use Guard Remover Eco Efflorescence & Cement.
- For low porosity materials, use Guard Cleaner Eco Surface Preparation prior to application.

Application

- Use the product in its pure form – do not dilute it.
- Shake well before use.
- Carry out a preliminary test on a small area.

Step 1: Apply

Apply a thin layer sparingly with a microfiber cloth, taking care to correctly apply the product.

Step 2: Wipe & Polish

After 10 minutes, carefully wipe and polish the treated material with a microfibre, lint-free cloth.
